

Stakesphere(11/9)

1. Supported Networks

Stakesphere lets you stake tokens from many networks. Choose a network below to get started.

ONLY FILECOIN VISIBLE

```
desc:'Stake any amount of FIL, get monthly staking rewards and  
use your FIL across the web3 ecosystem .',perc:'upto  
10%-18%',price:'2,662,312,501',month:'APR'}
```

2.How Stakesphere Works

Earn Passive Rewards===By staking your FIL tokens, you'll be rewarded with additional FIL tokens for supporting the network.

Network Security===Staking enhances the security of the Filecoin network, making it more resilient against potential attacks.

Start Earning Rewards===Once you've staked your FIL tokens, you'll automatically start earning staking rewards, which are typically distributed at regular intervals.

3.Why Stake with Filecoin?(ABOUTUS)

Staking your FIL tokens is a way to actively participate in securing and maintaining the Filecoin network. As a staker, you help to validate transactions and ensure the integrity of the network while earning rewards for your contributions. Staking is not only financially rewarding but also reinforces the decentralized nature of Filecoin by involving token holders in the consensus process.

4.BLOGS(REMOVE Blogs& Latest)
